Claims Allowed

Claims 1-13 are allowable over the prior art of record. The claims are allowed because the prior art does not anticipate nor render obvious the invention of a lubricating device for a planetary transmission including a first, second and third oil passage as defined by claim 1, plus the features of a first and a second connection passage as defined by the claim.

Prior Art Discussed

The examiner has considered the reference cited by applicant in his Information Disclosure Statement filed September 5, 2003. The reference does not show all of the features of the claimed invention.

The reference cited by the examiner is deemed pertinent to applicant's disclosure. Ohtake '100 shows a lubricating arrangement for a planetary gearing but does not show a first oil passage or a second connection passage as defined in the claims.
